For more information on this product, please refer to www.waystone.com/funds or call +352 26 00 21 1.

Accurate as of: 16 June 2025

What is this product?

Type

This is an investment fund established as a Company With Variable Capital (SICAV).

Objectives

Brock Milton Capital UCITS SICAV - BMC Global Technology Fund aims to create long-term capital growth by investing in a portfolio of selected global equities with technology characteristics, with at least 50% invested in the Information Technology and Communication Services sectors (according to GICS classification). Investments can span across multiple sectors, as long as they, in the Investment Manager's reasonable discretion, are considered to have technology characteristics. The aim is to outperform its benchmark, MSCI All Country World Daily Net Total Return Index.

Investment policies The Sub-Fund mainly invests directly and indirectly (i.e. through warrants and derivatives) in equities and equity linked securities (including, but not limited to, American depositary receipts, European depositary receipts, global depositary receipts). The Sub-Fund is allowed to invest in any equity security regardless of market capitalization or place of registered office.

The Sub-Fund may invest up to 30% of its net assets in emerging markets, including up to 15% of its net assets in China, through China A-Shares via the Shanghai-Hong Kong Stock Connect and the Shenzhen-Hong Kong Stock Connect.

The Sub-Fund may invest in deposits, money market instruments and fixed income instruments (such as government bonds) for cash management purposes up to 20% of its net assets.

Fixed-income securities will be rated investment grade credit (having a minimum credit rating of AA-, as measured by Standard & Poor's or any equivalent grade from other credit rating agencies).

In the event of downgrade of such security, the Investment Manager will remedy that situation, which may include selling such security, taking due account of the interests of shareholders. Under exceptional circumstances or unfavourable market conditions, the Sub-Fund's net assets may also be invested up to 30% in deposits and money market instruments in order to achieve its investment goals.

The Sub-Fund may hold up to 20% of its net assets in ancillary liquid assets. Under exceptionally unfavourable market conditions and on a temporary basis, and if justified in the interest of the investors, the Sub-Fund may however breach that limit for as long as the exceptionally unfavourable market condition persists. The Sub-Fund may invest in the following instruments: common stock, preferred stocks, closed-ended REITs, term deposits (for cash management), money market instruments, derivatives (forwards), government bonds, and depositary receipts.

Benchmark uses The Sub-Fund is managed actively and uses the MSCI All Country World Daily Net Total Return Index to compare

performances and for performance fee calculation purpose. The deviation of the portfolio composition of the Sub-Fund compared to the benchmark is significant.

The index is not a controlling factor for the Portfolio Managers of the Sub-Fund in their investments. The Sub-Fund can invest in any equity security regardless of market capitalization or place of registered office.

Redemption and Dealing The Sub-Fund will be open for subscriptions and redemptions all official Luxembourg working days.

Distribution Policy The share class does not distribute dividends. All income is reinvested in the Sub-Fund.

Fund Currency The reference currency of the Sub-Fund is SEK and the currency of the share class is EUR.

Switching between Funds Investors may switch their shares in the Sub-Fund for shares in another sub-fund within Brock Milton Capital UCITS SICAV. For further information, please refer to the prospectus which can be found on the Management Company website <https://funds.waystone.com/public> or contact your local Investor Servicing team on +46 8 506 22300.

Asset segregation The assets and liabilities are segregated by law between the sub-funds of Brock Milton Capital UCITS SICAV. This means that the Sub-Fund's assets are held separately from the assets of other sub-funds. Your investment in the Sub-Fund will not be affected by any claims made against any other sub-fund in Brock Milton Capital UCITS SICAV.

Intended retail investor

This product is intended for investors who plan to stay invested for at least 5 years and are prepared to take on a medium level of risk of loss to their original capital in order to get a higher potential return. It is designed to form part of a portfolio of investments.

Term

The Fund is open-ended and has no maturity date. Subject to the liquidation, dissolution and termination rights of the board of the Fund as set forth in the Fund prospectus, the Fund cannot be automatically terminated. The PRIIP manufacturer, Waystone Management Company (Lux) S.A., is not entitled to terminate the product unilaterally.

Practical information

Depository CACEIS Bank, Luxembourg Branch

Further information Additional information about the Sub-Fund can be obtained from the Brock Milton Capital UCITS SICAV, such as the prospectus and latest annual reports (and half-yearly reports). These documents are available free of charge in English at the Management Company website <https://funds.waystone.com/public>. The NAV is calculated each day and is published at <https://coeli.com>.

What are the risks and what could I get in return?

Risk Indicator

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable: this type of scenario occurred for an investment between 29 March 2024 and 31 March 2025.

Moderate: this type of scenario occurred for an investment between 31 August 2017 and 31 August 2022.

Favourable: this type of scenario occurred for an investment between 31 March 2020 and 31 March 2025.

Recommended holding period		5 years	
Example Investment		10,000 EUR	
Scenarios		If you exit after 1 year	If you exit after 5 years (recommended holding period)
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs Average return each year	5,476 EUR -45.2%	4,506 EUR -14.7%
Unfavourable	What you might get back after costs Average return each year	8,625 EUR -13.8%	10,637 EUR 1.2%
Moderate	What you might get back after costs Average return each year	10,818 EUR 8.2%	16,017 EUR 9.9%
Favourable	What you might get back after costs Average return each year	14,414 EUR 44.1%	20,016 EUR 14.9%

What happens if Waystone Management Company (Lux) S.A. is unable to pay out?

The Management Company has no obligation to pay out since the Fund design does not contemplate any such payment being made. You are not covered by any national compensation scheme. To protect you, the assets are held with a separate company, a depositary. Should the Fund default, the depositary would liquidate the investments and distribute the proceeds to the investors. In the worst case, however, you could lose your entire investment.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- in the first year you would get back the amount that you invested (0% annual return). For the other holding period we have assumed the product performs as shown in the moderate scenario,
- 10,000 EUR is invested.

We have classified this product as 4 out of 7, which is a medium risk class.

This rates the potential losses from future performance at a medium level, and poor market conditions could impact the capacity of the Sub-Fund to pay you.

The risks pertaining to the Sub-Fund are primarily those inherent in investing in securities. These risks include settlement risks, custody risks, accounting standards risks, illiquidity of investments risks and foreign currency and exchange rates risks.

Beside the risks included in the risk indicator, other risks may affect the fund performance. Please refer to the fund prospectus, available free of charge at <https://funds.waystone.com/public>.

	If you exit after 1 year	If you exit after 5 years
Total Costs	66 EUR	428 EUR
Annual cost impact*	0.7%	0.7% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 10.6% before costs and 9.9% after costs.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	0.00% , we do not charge an entry fee.	0 EUR
Exit costs	0.00% , we do not charge an exit fee for this product, but the person selling you the product may do so.	0 EUR
Ongoing costs taken each year		If you exit after 1 year
Management fees and other administrative or operating costs	0.61% of the value of your investment per year. This is based on an estimate of the costs.	61 EUR
Transaction costs	0.05% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	5 EUR
Incidental costs taken under specific conditions		If you exit after 1 year
Performance fees	0.00% The actual amount will vary depending on how well your investment performs. The aggregated cost above is an estimation. A performance fee of 10% is charged on any portion of the total return that exceeds a performance benchmark defined as the MSCI All Country World Daily Net Total Return Index. The performance fee is calculated according to the high watermark principle.	0 EUR

How long should I hold it and can I take money out early?

Recommended holding period: 5 years

This product is designed for longer term investments; you should be prepared to stay invested for at least 5 years. However, you can redeem your investment without penalty at any time during this period, or hold the investment longer. The Sub-Fund will be open for subscriptions and redemptions all official Luxembourg working days.

How can I complain?

You can also send your complaint to the Management Company at 19, rue de Bitbourg, L-1273 Luxembourg or by e-mail to complaintsLUX@waystone.com.

If you have a complaint about the person that advised you about this product, or who sold it to you, they will tell you where to complain.
